Shores and tides
Washing away, into the ocean breeze
A hurricane, a flurry of sand
That got away, we went away
The night is awake
We are alive, you are my northern star
Guiding me through my days
Through my nights
But circumstance lingers on

You're washing away
Damn this place

I cannot wait
You're all that I got
I'm coming for you
(Coming for you)
We'll wash away
(Don't wash away)
Into the ocean

Let's crash our waves
Collide our stars
Let's meet again
As we enter the sunset
We'll wash away
(Don't wash away)
Into the ocean

Opposite shores
The waves they are waning
It's kind of frustrating
Waiting for the moon
To set in the distance
But then again
We're stuck in this instance

I'm not falling down
(I'm coming for you,
I'm coming for you)
Stuck in this instance

Without a resistance
And now we're just floating away
In the distance

You're washing away
Damn this place

I cannot wait
You're all that I got
I'm coming for you
(Coming for you)
We'll wash away
(Don't wash away)
Into the ocean

Let's crash our waves
Collide our stars
Let's meet again
As we enter the sunset
We'll wash away
(Don't wash away)
Into the ocean

I'm not going down without a fight
The planets align and we're so alive
We cannot breathe, you and me
Gotta get, get on, out of this place
Cause my lighthouse is going dim
The distant horizon is shrinking thin
I'm taking you with me

I cannot wait
You're all that I got
I'm coming for you
(Coming for you)
We'll wash away
(Don't wash away)
Into the ocean

Let's crash our waves
Collide our stars
Let's meet again
As we enter the sunset
We'll wash away
(Don't wash away)
Into the ocean

Don't even deny the truth in our minds
Watch that composure, don't let out exposure
Cause I'll keep on sailing destined for you
We were friends and we made it

We were lost and then we were found
