We used to love, we used to care
Seemed like we really had it all
But now it's been a cool affair
I can feel it in the air

What about you and what about me
You've got a boyfriend and you begin to change

Wait, baby wait
Would you stay a little bit longer
You're my star, you're my everything to me
Wait, baby wait
Would you hold me a bit stronger
One more time, before you leave my kee

Autumn leaves are falling dawn
Just another season's gone
Summer days and butterflies
They will all be fading out

Red sun goes down way over town
Another day is going by

Wait, baby wait
Would you stay a little bit longer
You're my star, you're my everything to me
Wait, baby wait
Would you hold me a bit stronger
One more time, before you leave my kee

Every day every night
I'm thinking about you
Even though I know
It's a dream that will never come true
