I've followed my dreams, as long as I remember.
No matter the pain, no matter the rain fall.
(Ohhhh)
Th road has been so long, so uncertain.

Looking back at what we've done.
Chasing devils on the run.
It's a kind of emotion, second to none.
Reaching for the sun.

This is love, this is life.
This is good, this is great.
This is all that we believed in.
All this time, all the tears.
All the prayers, all these years.
We've waited on this feeling.

Together, together.
We're coming undone.
Together, together.
Baby, we are one. (Ohh)

Life can be so hard, when you feel lonely. (Yeah)
Hiding the ache, you don't wanna break down. (No no
no no)
You can change it all, if you believe it. (Yeah yeah yeah
yeah)

Looking back at what we've done.
Reaching for the sun.

This is love, this is life.
This is good, this is great.
This is all that we believed in.
All this time, all the tears.
All the prayers, all these years.
We've waited on this feeling.

Together, together.
We're coming undone.
Together, together.

It's only begun.
Together, together.
Baby, we are one.

Hold me now and let me go.
Hold me now and let the whole world know.
We are one.

Got to let this feeling grow.
Got to let this feeling grow.

Looking back at what we've done.
Chasing devils on the run.
It's a kind of emotion, second to none.
It's a kind of emotion.
Reaching for the sun.
(Ohhhh)

This is love, this is life.
This is good, this is great.
This is all that we believed in.
All this time, all the tears.
All the prayers, all these years.
We've waited on this feeling.

Together, together.
We're coming undone.
Together, together.
We've only begun.
Together, together.
Baby, we are one.
(Ohhh)
Baby, we are one.
