In a sense it was just a coincidence the way we met
friends by fate and steadily every day we crept
closer to thinkin maybe that
we should take a chance like two trapeze artists with
no safety net
first time i kissed you i was sick with the flu
and you said it didn't really make a difference to you
selflessly,
i never really told you how much i apperciate you riskin
your own health for me
But i'm glad you risked it
it was surely worth it
i had to get with you cause girl we perfect
together like the yin and the yang
or the yellow and white portions of a lemon meringue
meant to be
we complimentary
you help the world make a little more sense to me
cos i never know what to do
so you guide me provide me
with the meaning of life sittin beside me
better than any therapy
and i wanna be with you like you're there for me
for whatever it's worth
and wakin up next to you in the mornin's like heaven on
earth
girl if i could sing to you like marvin, stevie,luther, alla,
otis
i would but i can't so i hope this is good
it's been a long time and it keeps gettin better
i'm so damn lucky we're together

Chorus

its like slow down (slow down)
pass me a peice of chicken and the starter fluid
slow down (slow down)
sit back and relax as i barbecue it
Slow down (slow down)
I'm feelin it love thats what we dealin with
Slow down (slow down)
it's already late we need to get our proirities straight

Bust it

I see beauty in the smile of a crack addict
I got a love hate relationship with bad traffic
sometimes i feel like i get caught in the mathematics
i need to look at my reflection and laugh at it
cos if i don't then this world will make me psychopathic
come her girl n sit with me on this recycled plastic
it won't be long till i'm rotting in a sunken casket
i wanna look in your eyes again
cos i see something in your pupil that makes me
quadruple
my reasons for even being alive again
and when i look into the sky i don't need to be high
to know why i became the person i am
its so alive i can feel it in your fingertips
i can smell it in the polluted air
and i can taste it in your lips
all of my senses are trapped in the days
i need to step the fuck back and just capture the phrase
it goes

Chorus

Yes yes we grill some meat
and we can just chill and eat
cos baby girl you make me feel complete
you make me feel real old
i bet you'd like some butter on that roll
i'm in control with so much soul
I got charcoal on the propane tank
i don't matter cos (muttering)

yes this how we do 2003 macgregor crew
we got the kung fu you with something brand new
mike D is on the F to the L to the U the T E R
