Around the world I searched for you
I travelled on but hope was gone to keep a rendez-vous

I knew sometime
Some place
Somehow you'd look at me and I would see the smile
You're smiling now

It might have been in
Or in New York
Or in Paris
Or even London town
No longer will I go all around the world for I've found
my world in you

Around the world I searched for you
I travelled on but hope was gone to keep a rendez-vous

I knew sometime
Some place
Somehow you'd look at me and I would see the smile
You're smiling now

It might have been in
Or in New York
Or in Paris
Or even London town
No longer will I go all around the world for I've found
my world
Found my world in you
