So long  
So long  
Gee  
I hate to see you go  
You mean the world to me you know  
You've been mine so long

So long  
So long  
Hope we meet again some day  
If we do I hope you'll say darling my mind was wrong

All alone with my memories of you  
I hope you are lonely too  
You're my own even though we're oh so far apart  
I shall keep you here in my heart

So long  
Though you leave me and I cry this will never be  
goodbye  
You've been mine so long

All alone with my memories of you  
I hope you are lonely too  
You're my own even though we're oh so far apart  
I shall keep you here in my heart

So long  
Though you leave me in a cry this will never be  
goodbye  
You've been mine so long
