Dancing heroes by Machiavel
DANCING HEROES

Here we go, here we dance
Here we go, here we dance
Wake up, get up!
And if they like to dance disco, oh good for them
And if they're happy that way, oh well good for them
It's not your problem
So let them dance
Disco, reggae or rock 'n' roll all night long

In the night, in the city
Everywhere in the world you can find dancing heroes
And if they like to dance reggae, oh good for them
And if they like rock 'n' roll, oh well good for them
It's not your problem
So let them dance
Disco, reggae or rock 'n' roll all night long

Clothes in fashion
Hair in fashion
Words and motions in fashion
This night he really has it all to be a great dancing hero
In the right hand a cigarette
In the left a drink
Orange juice, grapefruit juice
W(h)isky, rum or gin
Young girls, young boys grin under lasers
Red, blue, green, white and yellow lights
Fill the air, atmosphere of a fair
