What do you feel when you're alone?  
When all the shadows dance  
The night will let you go!  
Do you see inside your nightmares?  
Try to escape your dream and watch the light of dawn.

Chorus:  
Feel the sun reach your soul  
Let the rain away!  
See the light in the night  
You may shine today!

I know it's real, when you feel love,  
When you are lost somewhere at the point of no return.  
Now you can heal, trouble and sorrow  
Sad to find your ..  
And let 'em slowly go.

Chorus: (x2)  
Feel the sun reach your soul  
Let the rain away!  
See the light in the night  
You may shine today!
