over the hill by Machiavel  
(Mario Guccio - Albert Letecheur - Roland De Greef -  
Jean Paul Devaux - Marc Ysaye)

I can see some men walking in town  
And I can hear them talking just like fools  
And they just walk in their dreams  
And they just go with the stream  
But they'd better look at what 's real  
So they will see over the hill  
And they can bring to their sides  
So many light in the night  
And they can bring to their sides  
So many joys in their life  
I can see some kids running in town .  
And they just keep on playing the game  
And they just walk in their dreams  
And they just go with the stream  
But they 'D better look at what 's real  
So they will see over the hill  
And they can bring to their sides  
So many lights in the night  
And they can bring to their sides  
So many joys in their life  
I can see some people made like men  
And they wonder why they all look the same
