You're my friend, not the only one,
But I miss you, it's been so long
I'm afraid you're travelling through a dream,
where you want yourself alone
Light!

Not afraid to leave it all behind
Without saying, so long!
So you dared to brave the rules of life
Now you're on your own
Light!

Forget our fears
Forget the night
On the other side we'll get it all
Forget our fears
Forget the night
They've got no reason, to erase our names
We feel a thrill, the real lies,
So we can't go wrong, it's real

Since you're gone, I still hear you sing
Now you're flying with the angels
Even if you're not here, your music remains the same
Now you're sailing all alone

Light!

Forget our fears
Forget the night
On the other side we'll get it all
Forget our fears
Forget the night
They have no reason to erase our names
We feel the thrills, the real life
So we can't go wrong, it's real

We feel the thrills, the real life
So we can't go wrong, it's real
