Just a small portion of your love winds me up like a  
clock

Just a small portion of your love, I'm like a river a-  
runnin' never stop

Oh just a little bit goes a long way

Just as long as I get a little, each & every day

Just a small portion of your love seems to rule my  
troubles away

Just a small portion of your love & I'll go to work all for  
no pay

Oh your love that's so fine, & oh how it soothe my time

But goin' out, get you, give me peace of mind

Ooo baby, you don't know what you do for me

Ooo baby, I don't have no misery

(instrumental)

Just a small portion of your love, just a small portion of  
your love

Ooo baby, you don't know what you do for me

Ooo baby, I don't have no misery

Just a small portion of your love, that's all I'll ever need

Just a small portion of your love, just a teeny weeny bit

Just a small portion of your love

...& fade
