It hurt me when you told me that you'll never be mine  
Soon the day will roll around when I see you my last  
time  
The one you really love will soon be comin' home  
And I'll be the one you left standing all alone

Can't you find another way of doing it baby, can't you  
Can't you find another way of doing it baby, can't you  
Heaven up above, you're my everything little girl  
Everything that I'm lookin' for,  
Can't you find another way

I'll do my very best to get over you  
Deep down in this heart of mine, I know it ain't no use  
It'll be like fightin' an army with my bare hands  
Knowin' all the time little girl I'm on the losin' end

Can't you find another way of doing it baby, can't you  
Can't you find another way of doing it baby, can't you  
Heaven up above, you're my everything little girl  
Everything that I'm lookin' for,  
Can't you find another way

Musical interlude

Oh we have grown a little too close for you to step out  
now  
Don't you know that if you leave me, baby, you're surely  
gonna tear me down

Can't you find another way of doin' it baby, can't you  
Can't you find another way of doing it baby, can't you  
Can't you find another way of doing it baby, can't you

Can't you find another way  
Can't you find another way

Can't you find another way of doin' it baby, can't you  
Can't you find another way of doing it baby, can't you  
Can't you find another way of doing it baby, can't you  
(Fade out)
