Good night baby
You know I hate to leave you now
Keep on bein' my lady
& I'll see you tomorrow somehow
Right now it's-a good night baby, baby good night
Sweet dreams baby, won't you keep me on your mind

Bridge:
Every time I turn to walk away
I feel the power of love comin' on
The look in your eyes seems to tell you
You feel the same way after I'm gone

Hurts to leave you, but...
Good night baby, baby good night
& if you wake up feelin' lonely
You can call me any time

(repeat bridge)

I'd better get away, say
Good night baby, baby good night
I'll go on, baby I know
I feel the power of love, etc.
...& fade
