Just a small portion of your love winds me up like a
clock

Just a small portion of your love, I'm like a river a-
runnin' never stop

Oh, just a little bit goes a long way

Just as long as I get a little, each and every day

Just a small portion of your love seems to rule my
troubles away

Just a small portion of your love and I'll go to work all
for no pay

Oh, your love that's so fine and oh how it soothe my
time

But goin' out, get you, give me peace of mind

Ooo baby, you don't know what you do for me

Ooo baby, I don't have no misery

Just a small portion of your love, just a small portion of
your love

Ooo baby, you don't know what you do for me

Ooo baby, I don't have no misery

Just a small portion of your love, that's all I'll ever need

Just a small portion of your love, just a teeny weeny bit

Just a small portion of your love
