Still is the night, not a sound  
Not a movement in this whole house  
Listen, it's been that way since you've been gone  
Oh, just a lonely man in an empty home

Still, still, still is the night  
Oh, more tears, oh, I'm gonna have to cry  
You took the one thing that I really need  
Oh, yes, I do now  
When you took your love way from me

Bring it on home, bring your sweet love home to me  
'Cause I'm lonely, lonely, lonely, oh, oh, oh  
Oh, how still is the night  
I wanna say one more time

Oh, how still is the night  
Oh, how still is the night  
Oh, how still is the night
