Baby don't you worry about your man
I'll be comin' home as soon as I can
I got love in the palm of my hand
Gotta get back to you as soon as I can

You don't know what you mean to me
You don't know what you mean to me
You don't know, no no no you don't know

I've got lovin' you on my mind
I'll start right now so I will be on time
I'm gonna do all that I can
Just to prove to you that I'm a livin' soul man

You don't know what you mean to me
You don't know what you mean to me
You don't know, no no no you don't know

I'm gonna love you that's the way I planned it
I'm gonna kiss you, that's the way I planned it
I'm gonna hold you till you can't stand it, hat's the way I
planned it,
I'm gonna love you, love you, love you just as hard as I
can

You don't know what you mean to me
You don't know what you mean to me
You don't know, no no no you don't know
(Fade out)
