### "Coming Apart"

Visit "[Coming Apart](#)" on [MotoLyrics.com](https://MotoLyrics.com)

Trace the shadow of a lonely day  
You cry for a taste of what you see  
You're coming apart, you don't know what you believe  
Drifting like the victim of somebody else's dream

Stuck with regret and no new way  
You cry for a taste of what you see  
You're coming apart, you don't know what you believe  
Drifting like the victim of somebody else's dream

(solo)

You're coming apart, you don't know what you believe  
You're coming apart, you don't know what you believe  
You're coming apart, you don't know what you believe  
Drifting like the victim of somebody else's dream
