I see you look at me
Through that china frame
I've seen you here before
Time and time again
I know your name, what's your game?

Every time you're there
Filling my head with doubts
All these questions rise
I just can't keep them out
I know your name, what's your game?

Why won't you tell me
What's going on in your head
Give me a reason
Or are you already dead?
Won't you leave me alone, leave me alone, please?
What's your game?

Don't wanna cry no more
I've just had enough
You showed me that I'm weak
When I thought that I was tough
I know your name, what's your game?

So hard to forget
Why can't you be ignored
Look what you've done to me
It's all your fault
I know your name, what's your game?

Why won't you tell me
What's going on in your head
Give me a reason
Or are you already dead?
Won't you leave me alone, leave me alone, please?
What's your game?

(drum solo)

Please!

What's your game?

What's the point? Where's your plan?

Where are you going? - have you got anywhere in
mind?

When you get there what then, what will you do with
your life

What's the point?

Won't you leave me alone

Please?

What's your game?
