### "There Goes The Neighborhood"

Visit "[There Goes The Neighborhood](#)" on [MotoLyrics.com](https://MotoLyrics.com)

The house next door just came up for sale  
She's going home to mama - she says he can go to hell  
The couple down the block is splitting up I hear  
And they're the third ones on our street this year

It is just another day in Anytown U.S.A.  
Somebody's hurt, somebody's blue  
And somebody moves away  
What little they do to make it work  
Don't seem to do much good  
When loves moves out...there goes the neighborhood

First they take off their wedding bands  
They call it quits and call the moving vans  
He takes his and she takes hers  
And what's left over is left on the curb

It is just another day in Anytown U.S.A.  
Somebody's hurt, somebody's blue  
And somebody moves away  
What little they do to make it work  
Don't seem to do much good  
When loves moves out...there goes the neighborhood

It is just another day in Anytown U.S.A.  
Somebody's hurt, somebody's blue  
And somebody moves away  
What little they do to make it work  
Don't seem to do much good  
When loves moves out...there goes the neighborhood

When loves moves out...there goes the neighborhood
