Walking against time  
Reliving decay and despair inheriting the sensitivity of  
absolution a leap of faith bringing  
Forth vulnerability battle cries from the above  
Bringer of silence relive from the living scared from  
the dead in form of sheep, wandering with  
The wolves giving place for anxiety in a world of no  
fear escalator of pain  
Bringer of silence opening the gates where life is  
undone inspired by miraculus life glow and  
The fluid leaking from the chosen singled out as  
absured  
Bringer of silence a dead of kindness in depriving man  
of death by an out cast cheated from  
Years worth of hate enduring as a slave of innocence  
apparnetly the longing for benefaction  
Disintegration the blackness of bleeding eyes eyes that  
have senn craetion of destruction the  
Bringer it self walks amongst all bringer of silence  
Endorer of the dying
