Hey young world
Check one two, check one two
Hey young world
Check one two, check one two
Hey young world, young world
Hey young world, young world
This track here may cause concern for all ring leaders
Why don't you listen and learn?
To love peace, happiness once was strong
But due to society, even that's turned wrong
Why?
Don't be a dumb dummy and disrespect mommy
And why?
She put you on Earth and loved you since birth and
you...
Hey young world, the world is yours
Hey young world, the world is yours
Young world, young world, the world is yours
Young world, young world
Reward is a brainwashed kid (Kid, kid, kid, kid) gone
wild
Young little girls already have a child
Bad company and now you've been framed (Been
framed yo)
Parents are hurting so hurt and ashamed
Why?
Hell lil' kids don't follow these dopes
Why?
Don't be a fool like those who ditch school, it's yours
Hey young world, the world is yours
Hey young world, the world is yours
Young world, young world
Young world, young world
Get ahead and accomplish things
You'll see the wonder and the joy that life brings
Don't admire thieves they don't admire you
Their times are limited and no hard rocks too
Listen be strong and scream, "Whoopee doo"
Go for yours, 'cause dreams come true
You'll make your mommy so proud of you too
And this is a message that the ruler Rick threw

Why?
Elders see our wise ones grow
Interest in what their kid learned 'bout seen how the
offspring turned out (Why?)
Knowing you can now safeguard self
Put upon an exciting path
You'll see immense pride they'll have
Hey young world, the world is yours
Hey young world, the world is yours
Young world, young world, young world
Young world, young world, young world
Don't discipline rule soundly (Hey young world)
Kids that we have lose boundaries
(Hey young world) Grow into what's called curse race
lack independence
Worst case imprisonment death near for (Young world,
young world)
Not what we brought kids here for
(Young world, young world) Morals and values of sorts
should be the first thing installed
Believe it or not, god still shines on you (God still
shines on you)
He guides you and he watched you as you grew
Stay out of trouble when it comes insight
'Cause a man never loses a fight in god's sight
Hey young world, young world
Hey young world, hey young world
Young world, young world, young world
Young world, young world, young world (Sing it mate)
Hey young world, I wonder what how they're doin' that
little thing?
Hey young world, wait young world
Young world, young world, young world
Young world, young world, young world

Sing it mate
