I have wished for better days, but...
This is what I got.
24 hours of being crazed I'm lonely and lost

Ooo baby ooo baby what I'm tryin to say
Ooo baby ooo baby save me save save me

Two more pills to kill the pain I'm
Three smokes from the heart
All they do is make me change, and lonely and lost

Ooo baby ooo baby what I'm tryin to say
Ooo baby ooo baby save me save me save me

I'm high all day high all day.
And I am still in love, in little pieces all over the ground

Runaway runaway and I am still here
Ooo kingsmen put me back together again
Together again

I have wished for better days, but
This is what I got
24 hours I'm in a daze and lonely and lost

Lonely and lost...
Lonely and lost...
... lonely and lost
... lonely and lost
Lonely and lost
