Searching around
Searching and flee
(Search to flee?)
To the light nothing can hide
No one is safe from their fate

Death
For you kiss
Sin, a lie
Embracing unkind
Nothing is safe from their fate

Death
Before you walk
Sensuously light to the light
Open your eyes
And no one is safe from their fate

Death in its arms
Death in its arms
Death in its arms
Death in its arms
Death in your arms

Death
Before your kiss
A sin, a lie
Embracing unkind
Nothing is safe from their fate

Death in its arms
Death in its arms
Death in its arms
Death in your arms
Death in your arms
Death in its arms
