How do you like it so far? Giddyap!

I am your power and your pain, I'll make you gallop at  
my pace

Human pony girl

I am the monkey on your back and we're going for a  
ride home

Human pony girl

Your nights are a season at my command

Human pony girl, Heeyah

This is my highway, no limit enforced, There is no law,  
Just

Feel my spur sink in your flank, Feel it, Feel it, Pony

Stomach sweat in your spine, Belly up , Shoulders  
down, Pony

Gonna take you someplace you ain't never been, That's  
right

Only you ain't never comin' back

I am the monkey on your back, I'm gonna ride you  
home, Little pony girl

I am the monkey on your back, I'm gonna break you  
home, Little pony girl

I am your power and your pain, I'm gonna make you  
race, Human pony girl

Giddyap! Gonna take you someplace you ain't never  
been, That's right

Only you ain't never comin' back

Gonna take you someplace you ain't never been, That's  
right

Only you ain't never comin' back

Giddyap!

I am your power and your pain, I'll make you gallop at  
my pace

Human pony girl

This is my highway, girl, There is no limit

Your nights are a season at my command, My little  
pony girl, Feel it

Stomach sweat in your spine, Belly up, Shoulders down

Pony, Human, Human pony girl, Human, You girl
