How do you like it so far  
Giddyap

I am your power and your pain  
I'll make you gallop at my pace  
Human pony girl

I am the monkey on your back  
And we're going for a ride home  
Human pony girl

Your nights are a season at my command  
Human pony girl, heeyah

This is my highway, no limit enforced  
There is no law, just

Feel my spur sink in your flank  
Feel it, feel it, pony

Stomach sweat in your spine  
Belly up, shoulders down, pony

Gonna take you someplace you ain't never been  
That's right  
Only you ain't never comin' back

I am the monkey on your back  
I'm gonna ride you home  
Little pony girl

I am the monkey on your back  
I'm gonna break you home  
Little pony girl

I am your power and your pain  
I'm gonna make you race  
Human pony girl

Giddyap

Gonna take you someplace you ain't never been

That's right  
Only you ain't never comin' back

Gonna take you someplace you ain't never been  
That's right  
Only you ain't never comin' back

Giddyap

I am your power and your pain  
I'll make you gallop at my pace  
Human pony girl

This is my highway, girl  
There is no limit

Your nights are a season at my command  
My little pony girl  
Feel it

Stomach sweat in your spine  
Belly up, shoulders down  
Pony, human, human pony girl, human, you girl
