Car crash, The pressing of two lips

Hard steel and an accidental death

One action does you up, Kiss of steel

Press your face to the metal crash, Feel your nose and
cheek bones crack

What action does you up? Kiss of steel

We're having a love affair with a Chevy in midair, Kiss
of steel

We're having a love affair with a Chevy in midair, Kiss
of steel

Let the mouth taste the silver spread, Let it ride and the
rubber screech

One shot will do them up, Kiss of steel
