## "Misery Tomb"

Visit "[Misery Tomb](#)" on MotoLyrics.com

Your life caves in, and I am there  
Pulling you back from the shoulders down  
And though you suffer you will be mine  
I always win I am misery

Ohhh

I make your pain and suffering infernal  
Turn your body inside out  
Put you past your breath and tears  
When all your loss is misery

Ohhh

I give you a glimpse of hope in the darkness  
Let you think that this will end  
And then securely nestle on your neck  
And drag you back to misery

(Ohhh) I love this place  
(Ohhh) I love this fuckin' job  
(Ohhh) I love this place  
(Ohhh) I love to give you pain

I give you a glimpse of hope in the darkness  
I'll let you think that this will end  
And then securely nestle on your neck  
I drag you back to misery

(Ohhh) I love this place  
(Ohhh) I love this fuckin' job  
(Ohhh) I love this place  
(Ohhh) I love to give you pain
