Lonely little dream this dream
Sleepy future passed unseen
Trying hard to get beneath
The skin you're underneath

That undiscovered heartbeat
Takes me down my easy street
Puppets hanging from the strigs
Wrip them off like angel wings

Born and raised in rain
Make me feel this way
Twenty pass forever started yesterday
I will call you shame when she knows it my name
Who is braver, this will save her

Who is alone and made us doubt
Ah ah ah who

Born and raised in rain
Make me feel this way
Yeah

Pull me out before I drown
In this shallow part of town
Tired eyes and dirty minds
Chasing what we left behind

Born and raised in rain
Make me feel this way
Twenty pass forever started yesterday
I will call you shame when she knows it my name
Who is braver, this will save her

Who is alone and made us doubt
Ah ah ah who

Born and raised in rain
Make me feel this way
Yeah
