Twist and tango

Quickstep, mambo - let my body swing and sway

I wanna dance forever, come baby, now or never  
Let your body move with me, get down here on the floor  
It's taking two to tango, to waltz and do fandango  
When I move my hips I know I'm in for something more

You will never get this chance again to dance me through the night  
Rhythms just like love, you can't deny

Twist and tango - every step is a step from heaven  
Quickstep, mambo - when we're dancing the night away  
Twist and tango - could be dancing like this forever  
Quickstep, mambo - let my body swing and sway

We are like stars in heaven who will go on forever  
There is nothing more to this than you and me

You will never get this chance again to dance me through the night  
Rhythms just like love, you can't deny

Twist and tango - every step is a step from heaven  
Quickstep, mambo - when we're dancing the night away  
Twist and tango - could be dancing like this forever  
Quickstep, mambo - let my body swing and sway

Let my body swing and sway

Twist and tango - every step is a step from heaven  
Quickstep, mambo - when we're dancing the night away  
Twist and tango - could be dancing like this forever  
Quickstep, mambo - let my body swing and sway

Quickstep, mambo - let my body swing and sway
