"80 West"

Visit "[80 West](#)" on MotoLyrics.com

Foggy sunsets are the best
A100 80 west
On the bridge over the bay that takes me to you
Sometimes the way I get my thoughts are cloudy
I forget how good I always feel when I'm with you
Now I've finally figured out I need to be around
Your sights and sounds I've been away for too long
Can't let go I can't hold back I'm not sure which shore
To attack I'm overwhelmed with possibilities
When I reach you I'll be fine but now I'm just a
Distant skyline reminding me of where I want to be
But I finally figured I need to be around your
Sights and sounds I've been away for too long
I've been away for so long
