Tag along
Baby girl
Close behind
Tender sweet
Tag along
Little feet
All is well
Within your world
Don't believe
All you hear
Never fear
Never fear
Shut your mouth
Tag Along

She's too young for that
She don't know, don't know,
Don't know not yet
Shut your mouth
She's too young for that
She don't know, don't know,
Don't know not yet
I never even said a word
But she can see right through my eyes
Still too young to understand
Should you go, should you go there
Should you go, should you go now
Everything, everything's alright
Everything, everything's just fine.
