What do you want from me

You're coming to me with all your problems
We don't even like each other
I say what are you doing here
You say you need some help
I say I don't like you
So...
How can I help you
What would I do for you
Why are you coming to me
Why are you here
What are you doing
How do you think I could do anything
Now please tell me
How could I help you
You know
How can I help you
What do you want from me

You are here again
This time
For no exact reason at all
Why don't you just go
I said go
So...
How can I help you
What would I do for you
Why are you coming to me
Why are you here
What are you doing
How do you think I could do anything
Now please tell me
How could I help you
You know
How can I help you
What do you want from me

What do you want from meee

Cause I said I can't help you but I'll try

Maybe things will work out

SoÂ...

How can I help you

What would I do for you

Why are you coming to me

Why are you here

What are you doing

How do you think I could do anything

Now please tell me

How could I help you

You know

How can I help you

What do you want from me

What do you want from meee

What do you want from meee

Cause I said what do you want from me
