This is not an anthem song, Joy is here to sing along,
It's the way I can express, the feeling that I get
When you walk in the room, my heart beats fast I'm out
of tune,
I'm waiting for that smile, sweet and lovely smile
Oh shivers, here they come

[CHORUS]

Cause it comes crashing, down
And I don't care cause I keep falling,
Falling more in love with you each day now,
If time could stop and we could fly
No one seems to care when I'm with you
Whoaa-ohh

I wish that life was what it seems
The hardest thing is to believe
You're the only one, I've been looking for
Cause even with you far away, I know that I will always
stay
Right here with you, I know this to be true
Oh shivers, here they come

[Chorus]

Ohh shivers, here they come
It comes crashing, down
And I don't care cause I keep falling,
In loveee

[Chorus]

Ohh no one seems to care when I'm with you,
No one seems to care when I'm with you,
Whoa-oh
