We just have a lil' fun fun (fun fun fun)

I'mma do a freestyle on this one

Girl you numero uno
Baby I like you know
Swimmin' through your water, call it mission, find your
Nemo
I can go as long as you go, easy like a frito
Hot on Frego, maybe Hugo
So glad you understandin'
My schedule demandin'
So baby girl let's get it in cuz time is of the essence
Got the body of a goddess and your kisses are a
blessing
If you're a teacher anatomy's the lesson
And I go angel stripper oh let's go
More, drink up drink up
You and I, get you to my room
I'mma beat it like a chrome
We ain't catchin' philies
Baby girl we just we just have a lil' fun

We just have a lil' fun (fu-u-un)
I ain't tryin' to be rude, I just wanna be with you
If the crew be act a fool keep it secret what we do
We just have a lil' fun (fu-u-un)
We just have a lil' fun (fu-u-un)
I can mix it at the bar
I can start with a massage
And you got me gettin' large
You look like Nicki Minaj
We just have a lil' fun

Hotter than average
I myself a model then I spit us for many shit
Take her sky high, she'll be thinkin' like cannabis
Tone got a lil' swooshy asked me can I handle I just
meant to leave
The pain with you cousin they havess it
Cool cuz my crew real crazy and devilish

This is bad comin', get it in, do not resone in
Then you ain't goin' on to stayin' over to mornin'

Tonight don't think just drink up up, let's talk
More, drink up drink up
