Oh no...yeah...
You've been mistreated
broken to pieces
countless times he's used u and cheated
brought u down girl hurt you beyond measure
one man's trash is another man's treasure
I see you struggling go through the motions
Tears they flow but he doesn't notice

BRIDGE

When u heart I hurt
I feel your pain
So hard to see your face,
girl I ever see is black rain

CHORUS

I know you're tired of crying, crying (black rain)
Inside you're slowly dying, dying (black rain)
Your heart's in need of me
Girl I swear, I'm right here
Dry your tears (black rain)
I know you're tired of crying, crying (black rain)
Inside you're slowly dying, dying (black rain)
Your heart's in need of me
Girl I swear, I'm right here
Have no fear

I know your first love's
the hardest to break
but his love versus mine girl
doesn't equate
baby I'm real (so real)
no, I can't erase
what he did,
but I vow that I will give you
a new outlook
on this thing called love
We will cherish each other
Foundation is trust

BRIDGE

When you heart I hurt

I feel your pain
So hard to see your face,
girl I ever see is black rain

CHORUS

I know you're tired of crying, crying (black rain)
Inside you're slowly dying, dying (black rain)
Your heart's in need of me
Girl I swear, I'm right here
Dry your tears (black rain)
I know you're tired of crying, crying (black rain)
Inside you're slowly dying, dying (black rain)
Your heart's in need of me
Girl I swear, I'm right here
Have no fear

Please believe me
I'm not out to hurt you
You gave your love to him
But he don't deserve you
Just let him go girl
there's no better way
To stop the tears from running
Tears running down your face

CHORUS *3

I know you're tired of crying, crying (black rain)
Inside you're slowly dying, dying (black rain)
Your heart's in need of me
Girl I swear, I'm right here
Dry your tears (black rain)
I know you're tired of crying, crying (black rain)
Inside you're slowly dying, dying (black rain)
Your heart's in need of me
Girl I swear, I'm right here
Have no fear
(Black Rain)
