Now you wanna catch the feelings
Mmmm-mmmm-mmmm-mmmmmm
Now you wanna catch the feelings
(just a bit older now)
Now you wanna catch the feelings
Now you wanna catch the feelings
(and I wonder why, why)
Now you wanna catch the feelings
Now you wanna catch the feelings
Started out as best friends
Just a bit older now
I remember when
We would stay up all night
Talking on the telephone
Rapping till the sun came up
It's so funny how
Things have changed cause
Now I don't know
Exactly what to say
To find out if she feels the same way
And if she don't then that will break my heart
I'll keep it to myself even though
I know that it will be hard
I'm catching feelings
That I've never done before
I can't believe I'm falling for her
I'm catching feelings
Don't wanna hold back no more
Cause she's the only one I adore
(she's the only on I ad-or or e)
I tried to hide the, the way I feel for her
But when she's near me I tend to let it show
But getting jealous, but now there's talk to her
Why can't I get the nerve to call
And let my feelings show girl
Now I don't know
Exactly what to say
To find out if she feels the same way
And if she don't then that will break my heart
I'll keep it to myself even though
I know that it will be hard
I'm catching feelings

That I've never done before
I can't believe I'm falling for her
I'm catching feelings
Don't wanna hold back no more
Cause she's the only one I adore
(girl I adore you)
I'm catching feelings
That I've never done before
I can't believe I'm falling for her
I'm catching feelings
Don't wanna hold back no more
Cause she's the only one I adore
Although I dream of you becoming my girl
I also wanna be your best friend
Cause you're the only girl I want in my world
I try to front but I just can't begin
I'm catching feelings
That I've never done before
I can't believe I'm falling for her
I'm catching feelings
Don't wanna hold back no more
Cause she's the only one I adore
(I'm catching feelings)
I never thought I'd fall for her
Being friends was cool enough
I miss the way we used to roll
But I have to catch these feelings
(I'm catching feelings)
I never can build up the nerve
(don't wanna hold back no more)
Or the words to say to her
I really, really miss the way we used to be
I'm catching feelings
That I've never done before
I can't believe I'm falling for her
I'm catching feelings
Don't wanna hold back no more
Cause she's the only one I adore
