[Verse 1]

O No No

I know you think it ain't my place to say how I feel  
But I'm gonna say it anyway, cause I gotta keep it real  
I know you're tired of trying to make it be something  
that's truly not (truly not)  
Girl it kills me everyday to see you in tears  
And it amazes me the way you put up all these years  
You be tweeking tryna make it work but you keep end  
up hurt  
Oh baby listen to me

[Chorus]

You don't have to wait, I can ease your pain  
You don't have to be left out in the rain  
Don't just say you're fed up tired of love  
Whatever you need I got it, come with me  
You don't have to stay up waiting by the phone  
You don't have to ever feel like you're alone  
Don't just say you're fed up tired of love  
Whatever you need I got it, come with me

[Verse 2]

You're the type that always said  
You don't need a man who's gonna make your heart  
stop over and again  
And now you're telling me that you're okay  
But you don't realize you're getting more pain than  
gain  
And I aint never been the kind to steer you wrong  
If you trust me as a friend then trust me with your heart  
girl (Trust Me)  
It don't take a lot to understand  
You need yourself another man

[Chorus]

You don't have to wait, I can ease your pain  
You don't have to be left out in the rain  
Don't just say you're fed up tired of the love  
Whatever you need I got it, come with me  
You don't have to stay up waiting by the phone  
You don't have to ever feel like you're alone

Don't just say you're fed up tired of love  
Whatever you need I got it come with me

[Bridge]

Don't give up girl  
Don't give up girl  
Don't give up girl  
You don't have to do it Baby

Don't give up girl  
Don't give up girl  
Don't give up girl  
You don't have to do it Baby

Don't give up girl  
Don't give up girl  
Don't give up girl  
You don't have to do it Baby

Don't give up girl  
Don't give up girl  
Don't give up girl  
You don't have to do it Baby

[Chorus]

You don't have to wait, I can ease your pain  
You don't have to be left out in the rain  
Don't just say you're fed up tired of love  
Whatever you need I got it, come with me  
You don't have to stay up waiting by the phone  
You don't have to ever feel like you're alone  
Don't just say you're fed up tired of love  
Whatever you need I got it come with me

Aww baby  
Don't give up on love shawty  
Because I'm here  
I'm here
