Trying to play it cool
But your always in my head (yeah)
and you don't see me
the way that I see you
but I think it's time we change that (yeah)
I don't know what is
girl I want to be more than friends
but i got a secret I been keepin
think it's time I let you in
Found someone i really like
We just alike
Gotta have her in my life
oh i love her vibe
found someone i love fore sure
couldn't hide no more
the one i want is you
Found someone i really like
We just alike
Gotta have her in my life
oh i love her vibe
found someone i love fore sure
couldn't hide no more
the want i want is you
Willing to risk it all
despite how long we been friends (eww)
and you might get mad
not talk to me again
I'll just have to take that chance
got tired of laying low
not letting my feelings show
I tried and i know
it's impossible
i don't know what it is
wanna be more than friends
I got a secret
i been keepin
Found someone i really like
We just alike
Gotta have her in my life
oh i love her vibe
found someone i love fore sure

couldn't hide no more

the want i want is you
Found someone i really like
We just alike
Gotta have her in my life
oh i love her vibe
Found someone i love for sure
couldn't hide no more
the want i want is you
now that you know
(how) how i feel about you
ohhhh yaee
where do we go yeah
do you know
we both know what it is (ha)
friends and lovers to the very end
Found someone i really like
We just alike
Gotta have her in my life
oh i love her vibe
found someone i love fore sure
couldn't hide no more
the one i want is you
Found someone i really like
We just alike
Gotta have her in my life
oh i love her vibe
found someone i love fore sure
couldn't hide no more
the one i want is you
Found someone i really like
We just alike
Gotta have her in my life
oh i love her vibe
found someone i love fore sure
couldn't hide no more
the one i want is you
Found someone i really like
We just alike
Gotta have her in my life
oh i love her vibe
found someone i love fore sure
couldn't hide no more
the one i want is you
