(Verse1)

I had a good girl  
But I did her bad  
Now I'm thinking how  
I can get her back  
She was my best friend  
And I lover her so (Hey, Listen)  
And it's killin me  
To ever think that I  
Would ever loose my pretty baby to someother guy  
Ain't nobody love you like I do  
I'll do anything to get with you girl

(Hook)

It's like the sun with no shine, baby  
It's like a clock that don't tell time, baby  
No matter how I try, baby  
I Can't, I Can't  
You're the air that I breathe, baby  
You're everything I need, baby  
Without you I'm so incomplete, baby  
I Can't I Can't

(Verse2)

It's been 3 months 2weeks since I felt your touch (I felt  
your touch)  
And a brotha can't eat, can't sleep cause I miss you so  
much  
Somebody take this weight off my shoulder, baby I just  
wanna hold you  
It gets hard without you in it  
If you ain't on my team, I know I ain't winning  
Remember when we first started holding hands we  
couldn't let go  
But now that we're separated baby I'm loosing control  
I'm staring at this dead end street my lady, don't know  
which way to go  
I'm missing your mind your body your spirit babygirl  
and your soul

(Hook)

It's like the sun with no shine, baby

It's like a clock that don't tell time, baby  
No matter how I try, baby  
I Can't, I Can't  
You're the air that I breathe, baby  
You're everything I need, baby  
Without you I'm so incomplete, baby  
I Can't I Can't  
(Repeat Hook)

(Bridge)
