Yeah, girl I wish that I could spend time with you each
and everyday
Playin' on my love emotions, that's the things that got
me open
And I don't know what it takes to let you know you're my
girl
To let you know you're my baby
And even when they say, "We won't stay around"
If they only knew that we were meant to be together
Forever and ever whatever there's no better than me
and you girl
That's why I write you love letters sayin'

I like the way you look at me
I like the time we spend baby
I like what we have grown to be
I like it, girl, don't you know I like it
I like the way you look at me
I like the time we spend baby
I like what we have grown to be
I like it girl, don't you know I like it

Sometimes I wanna be the one
You be checkin' for can I get a second
For me and you to be alone
Tell me if you think it's wrong
Love is nothin' but the time it takes to say
I'm on your mind
Let me tell you, I'm always there, oh yeah

Lets get a-little time away
Go to the movies on a Saturday
Meet me at the finish line
So I can tell you one more time

Girl you know, I'm not scared
To let you see that

I like the way you look at me
I like the time we spend baby
I like what we have grown to be
I like it, girl, don't you know I like it

I like the way you look at me
I like the time we spend baby
I like what we have grown to be
I like it girl, don't you know I like it

When I think of you
I think of all the things we could do
And I never wanna let you go
And as long as I can let you know
I hope we stay down forever

I like baby, baby, baby, baby
I like baby, baby, baby, baby
I like baby, baby, baby, baby
I like it, girl, don't you know I like it

I like the way you look at me
I like the time we spend baby
I like what we have grown to be
I like it, girl, don't you know I like it
I like the way you look at me
I like the time we spend baby
I like what we have grown to be
I like it girl, don't you know I like it

I like baby, baby, baby, baby
I like baby, baby, baby, baby
I like baby, baby, baby, baby
I like it, girl, don't you know I like it
