I wanna be the one  
Ooh...if I can, baby  
Yeah  
Girl, I wanna be, I wanna be

When I fell  
I always knew that we would do well  
I never thought of you of a sell-out girl  
IÂ'd give my world to you, canÂ't you tell I will be  
there

But sometimes  
You throw me off and get out of line  
And I canÂ't take this feeling inside I get  
IÂ've been into you, girl, for sometime, just come by  
my side  
Â'Cause all I want

I wanna be the one to hold you if I can  
I would give you the stars above, youÂ'll know who I am  
I wanna be the one to show you IÂ'll make you stand  
I wanna be the one, I wanna be the one if I can

IÂ'll never let you feel out of place  
Â'Cause beinÂ' with you, girl, is an age to me  
I hope this life will ever proceed  
ThatÂ's how we should be

ThereÂ'll be times  
When the day when you just wonÂ't leave my mind  
IÂ'd have to say that itÂ's a different side of me  
Better than candy for free, donÂ't believe me when I  
say

I wanna be the one to hold you if I can  
I would give you the stars above, youÂ'll know who I am

I wanna be the one to show you IÂ'll make you stand  
I wanna be the one, I wanna be the one if I can

I wanna be the one to hold you if I can  
I would give you the stars above, youÂ'll know who I am

I wanna be the one to show you Iâ€™ll make you stand  
I wanna be the one, I wanna be the one if I can

My heart is open, girl  
If you notice it all  
Girl, the time will come when Iâ€™ll be the one  
With you forever more, yeah

I wanna be, I-I wanna be  
I wanna be, girl, I wanna be  
I wanna be, I-I wanna be  
I wanna be, girl, I wanna be

I wanna be, I-I wanna be  
I wanna be, girl, I wanna be  
Wanna be, wanna be the one, babe  
I wanna be the one if I can

I wanna be the one to hold you if I can  
I would give you the stars above, youâ€™ll know who I am  
I wanna be the one to show you Iâ€™ll make you stand  
I wanna be the one, I wanna be the one if I can

I wanna be the one  
I would give you the stars  
I wanna be the one  
I wanna be the one, I wanna be the one if I can
