Girl, let's just be friends (x4)

girl I know it sounds cliché,  
when people usually say  
what I'm about to tell you  
oh oh  
but I swear it's the truth  
the way I feel about you  
girl it's not the same  
nono

what's the point of holding on  
maybe the feeling ain't that strong  
see I thought that it was love but I was wrong  
baby girl you know I'm right  
all we do is fuss and fight  
but I don't wanna lose you  
so let's make it right

girl let's just be friends  
let's not make pretend  
and act like this is working  
when we both know, we're coming to an end  
and I don't want to resent you  
girl cause I respect you  
I don't wanna hurt you  
can't we just be friends

trust me it's better off this way  
maybe we can go back to those days  
before we hooked up  
and our feelings got mixed up

so please don't let me see you cry  
it would tear me up inside  
to know I cause you pain

Chorus

what's the point of holding on  
maybe the feeling ain't that strong

see I thought that it was love but I was wrong

baby girl you know I'm right  
all we do is fuss and fight  
but I don't wanna lose you  
so let's make it right

girl let's just be friends  
let's not make pretend  
and act like this is working  
when we both know, we're coming to an end  
and I don't want to resent you  
girl cause I respect you  
I don't wanna hurt you  
can't we just be friends

Bridge

I don't see why we should be confused  
to put each other through this is abuse  
to drag it out, tell me what's the use  
I'd rather be  
FRIENDDSSS  
I'd rather be your friend  
girl let's just be friends

let's not make pretend  
and act like this is working  
when we both know, we're coming to an end  
and I don't want to resent you  
girl cause I respect you  
I don't wanna hurt you  
Girl let's just be friends  
let's not make pretend  
and act like this is working
