Woahoh woahoh ohhhhh ohhhhh ohhhh

What's this I found
I must be dreamin
Your right on time
Girl I was sinkin down
Way down
Covered in hurt (yeah)

[HOOK]

But now I'm free (but now I'm)
Feel like an eagle
Flying (flying) I have no ego
Love came around
No better time but now to thankyou girl (girl)

[CHORUS]

My heart broke up girl (up girl)
from my past and I couldn't let go but (let go but)
now I found true love (true love)
I don't never wanna let it go(no)
My love angel (uhhuh) love angel my love angel girl
I was down under until I found my baby
Given up on love until I found my baby
My love angel (uhhuh) love angel my love angel girl

When my heart beat your heart beat
I can feel it anytime an I'm happy
I just want to make you smile babe (smile)
And if we die and our souls meet
Then in heaven I'll be
We can play all in the clouds girl (clouds girl)

[HOOK]

But now I'm free
Feel like an eagle
Flying I have no ego
Love came around
No better time but now to thankyou girl ohhhhh

[CHORUS]

My heart broke up girl (up girl)
from my past and I couldn't let go but (let go but)
now I found true love (true love)
I don't never wanna let it go (no)
My love angel (uhhuh) love angel my love angel girl
(oohh girl I)
I was down under until I found my baby
Given up on love until I found my baby
My love angel (uhhuh) love angel my love angel girl

[BRIDGE]

I can hear the angel singing
Love angel love love angel
I can feel the magic in the air
Love angel love love angel
Everything I am is because of you (cause of you)
Wasn't half of this man girl I swear it's true (this is true)
You turned my world around (around)
Now were floating on the clouds

[CHORUS]

I was down under until I found my baby (I was down on
love)
Given up on love until I found my baby (ooo girl)
My love angel (uhhuh) love angel my love angel girl
I was down under until I found my baby (I found my

Given up on love until I found my baby
My love angel love angel my love angel girl (I love you)
