

Sammie **"My Phone"**

Visit "[My Phone](#)" on MotoLyrics.com

I need a girl that I can spend my whole life with
Not somebody I can spend one night with
And usually I mess it up
But not this time, no effin' up
The more time I spend with you, the more I like you
I'm fallin' in love, so baby what did you do

For the holiday, I took you to meet my mama
For the summer time, I took you the Bahamas
To have a good time, I used to go out
Now I stay home with you watching movies on the
couch
And just when I think that everything is going good
(Good, Good, Good)
(Look, calm down, I don't even know no damn Kiyana)

She went through my phone (My phone, My phone)
She went through my phone
And found another girl's number
And now I'm so caught up, I'm so confused
And if I lose her, I don't know what I'd do

Baby, let me start off by saying I apologize
See this is the truth because I'm done with all the lies
I was over at that club drinking Patrone
I was leaving that club on my way home
No excuse, but I was feeling kinda tipsy
Almost at my car, that's when I met Nikki
She asked for a hug, so I gave her a hug

Asked for my number, just because
And I jeopardized the best thing that ever happened to
me

'Cause she went through my phone (My phone, My
phone)
She went through my phone
And found another girl's number
And now I'm so caught up (Caught up)
I'm so confused (Confused)
And if I lose her, I don't know what I'd do
[x2]

Sammie, Huh
Now I know it may be hard for you to believe me, girl
Girl girl
Girl, I swear I'll go crazy without you in my world
So I'm deleting the number (Erasing the number)

Oh, because
She went through my phone (My phone, My phone)
She went through my phone
And found another girl's number
And now I'm so caught up (I'm so caught up)
I'm so confused (I'm so confused)
And if I lose her, I don't know what I'd do
[x2]

Ooh, baby
Ooh, darling
Why'd you go through my phone
Yeah, yeah, yeah, oh yeah...
I'm so caught up (x4)
Said I'm so caught up, yeah...
Said, she went through my phone
And now I'm all alone
[Fade]
