(Intro)

Oh, oh, oh, oh

Oh, oh, oh, oh

Oh, oh, oh, oh

Oh, oh, oh

(Verse)

We got a problem, love your dilemma

And I'm down the cellphone, but you gotta tell me now

Cause if he goes further, things are destined to
change

Girl, you got a good thing, but girl I'm the better one

And I hate it when really we just think about

The chemistry and all the love between that we make

Oh baby!

(Pre-Chorus)

So if I kissed you there, would you tell me to stop?

I mean it!

So if I pulled your hair while I'm making you feel

Like you're dreaming?

(Chorus)

Don't regret it, don't!

Don't regret it, don't!

Don't regret it, don't!

You love me more,

Just admit it, Just admit it, just admit it!

Don't let us be that regret!

(Verse)

I won't break your heart

Baby, I promise

And we can't stay apart

Girl, let's be honest

Ain't you sick and tired thinking about me while you're
with him

Oh, oh, oh

You say we're best friends, but you know it's more than
that

Cause friends don't indulge in the things that we get

about
The chemistry and all the love between that we make
Oh baby!

(Pre-Chorus)

So if I kissed you there, would you tell me to stop?
I mean it!
So if I pulled your hair while I'm making you feel
Like you're dreaming?

(Chorus)

Don't regret it, don't!
Don't regret it, don't!
Don't regret it, don't!
You love me more,
Just admit it, just admit it, just admit it!
Don't let us be that regret!

(Bridge)

All that I think about
You're my lover and friend I can't shake it
Oh it' so usual is mutual
Can't let it go by so I'll take it

(Chorus x2)

Don't regret it, don't!
Don't regret it, don't!
Don't regret it, don't!
You love me more,
Just admit it, just admit it, just admit it!
Don't let us be that regret!
