Yeahhh
Sammie Baby

I'm riding down 85
Just came from my party
I'm try'na keep my focus
I keep looking at her body
Say she want me now
I say let me how you like it
She told me any kinda way
I kinda got excited

I turn my blinker on, blinker on, blinker on, I
Pulled aside the road, aside the road, aside the road,
said
Girl let's get it on, get it on, get it on
About to lose control
I'm about to lost control

Chorus:
In my rover
Shawty got her hands all on me
Telling me to pull it over
About to have me jumping in the back sit
And get up on ya
Oh you know I want ya
Oh you know I want ya
It's about to go down in my rover
Shawty got her hands all on me
Telling me to pull it over
About to have me jumping in the back sit
And get up on ya
Oh you know I want ya
Oh you know I want ya

Hook:
Ooh it's going down down
Sing that rover music
C'mon and put that boom boom in it
C'mon and put that boom boom in it
C'mon and put that boom boom in it

C'mon and put that boom boom in it

Verse 2:

Sub roof is really booming baby
Now our bodies rocking
Traffic zooming pass us, girl
I pray nobody's watching
Cause damn you feel too good to me
So no it ain't no stopping
Rover music playing
And the 808 is rocking

I turn my blinker on, blinker on, blinker on, I
Pulled aside the road, aside the road, aside the road,
said
Girl let's get it on, get it on, get it on
About to lose control
I'm about to lost control

Chorus

Hook
