[Verse 1:]

Looking at your body, baby.
Lusting is a sin, God forgive me.
Standing at the bar with your little black dress on.
I could tell you want it like I want you.
Come over to my section, let me greet you.
Three shots back, blame it on this patron.

[Hook:]

Public affection,
I'm with it if you 'bout that.
Girl kiss me, I dare you,
And girl I kiss you right back.
Don't care 'bout, who sees us,
Baby girl we're grown.
We can do it in the club, or the car or the bar.
Girl let's get it on.

[Chorus:]

Spontaneous love, love; we 'bout to get it on.
Spontaneous love, love; baby girl we're grown.
Spontaneous love, love; we 'bout to get it on.
We can do it in the club or the car or the bar,
Girl let's get it on.

[Verse 2:]

Oh, it's really going down.
I'm taking you down.
Can you feel me now? (now [x7])
Making love in the club like Usher,
Lick her up, giddy up, I trust her.
You got it going on,
Next up play T-Pain,
We could make love to a rap song.
Your body's got me girl.

[Hook:]

Public affection,
I'm with it if you 'bout that.
Girl kiss me, I dare you,
And girl I kiss you right back.

Don't care about who sees us,
Baby girl we're grown.
We can do it in the club, or the car or the bar.
Girl let's get it on.

[Chorus:]

Spontaneous love, love; we 'bout to get it on.
Spontaneous love, love; baby girl we're grown.
Spontaneous love, love; we 'bout to get it on.
We can do it in the club or the car or the bar,
Girl let's get it on.

[Bridge:]

Movies,
The back seat;
On top of the dryer.
Don't matter where we at baby, our sex game is on fire.
Jacuzzi, on the beach, girl I will supply ya.
We can do it in the club, or the car or the bar.
Girl let's get it on.
[repeat]

[Hook:]

Public affection,
I'm with it if you 'bout that.
Girl kiss me, I dare you,
And girl I kiss you right back.
Don't care about who sees us,
Baby girl we're grown.
We can do it in the club, or the car or the bar.
Girl let's get it on.

[Chorus:]

Spontaneous love, love; we 'bout to get it on.
Spontaneous love, love; baby girl we're grown.
Spontaneous love, love; we 'bout to get it on.
We can do it in the club or the car or the bar,
Girl let's get it on.
