Is it a dream?
Or is it real
Is it a dream
I don't know

Had a dream last night, I let you down
(I let you down, down)
Never paid you attention when my boys came around
(Came around, round round round)
And even though I lied and caused you hurt
I never meant to hurt you
The joke was on me cause you left me first

Shoulda loved you when you were ready
Meet you when you were ready
But it's over, really over now, now
And time stood still when you left me
(Still when you left me)
And I'm hurting, really hurting now, now
Hope this dream don't come trueee
Don't wanna lose my booo
Time stood still when you left me
(Still when you left me)
I'm hurting, really hurting now, now

Came home from the studio expect to see your face
(no ones there)
I miss your kiss, your love, your warm embrace
(warm embrace)
Our bed, our sheets, our pillows
Is playing in the background
I feel like a child who lost his mother
And I don't know how to act

Shoulda loved you when you were ready
Been true when you were ready
But it's over, really over now, now
And time stood still when you left me
(Still when you left me)
And I'm hurting, really hurting now, now
Hope this dream don't come trueee
Don't wanna lose my booo

Time stood still when you left me
(Still when you left me)
I'm hurting, really hurting now, now

Somebody pinch me, wake me up from this nightmare
Ohhh a Ohhh a
Because my baby's left me, damn I miss my girl like
Ohh a Ohh a
I should have got it together, when up from the start
Never saw it coming, us falling apart
Girl this can't be real
I gotta wake up before I lose my baby

Shoulda loved you when you were ready
Been true when you were ready
But it's over, really over now, now
And time stood still when you left me
(Still when you left me)
And I'm hurting, really hurting now, now
Hope this dream don't come trueee
Don't wanna lose my booo
Time stood still when you left me
(Still when you left me)
I'm hurting, really hurting now, now

I gotta wake up, wake up, wake up...
I gotta wake up
Wake up, wake up, wake up, wake up, wake up, wake
up...
I gotta wake up, wake up, wake up...
