Many people have their own Definition for a hero Mine  
just happen to be The ones that brought me Into this  
world So this song is dedicated to you Dear Mom

Gave to me life, heard my cries Curiously looked in my eyes All those things you said to me I'd be a  
doctor, lawyer, scientist Conversations from the heart Funny how you tolerated me There are times  
when you stood for me But you're always there when I need The little things you do God has  
blessed me You're my hero, my hero lives in you

You're my hero You don't need an S across your chest You're my hero You know you can move  
mountains by yourself But still you're my hero The strongest person that I found Can leap a building  
in a single bound But know you're my hero

Lately after months been gone Spending time with you alone Basketball practice you went with me  
Football and those baseball games You wanted me to play But still you helped me be The singer  
that's in me ooh daddy There were time you stood for me But you're always there when I need The  
little things you do God has blessed me You are my hero, you are my hero My hero, my hero lives  
in you daddy

You're my hero You don't need an S across your chest You're my hero You know you can move  
mountains by yourself But still you're my hero The strongest person that I found Can leap a building  
in a single bound But know you're my hero

You're my hero You don't need an S across your chest You're my hero You know you can move  
mountains by yourself But still you're my hero The strongest person that I found Can leap a building  
in a single bound But know you're my hero

There were times when I would sit down And talk to you Yes there were times oh yeah Sometimes I
