"Happy Again"

just an ordinary day, more time to live, more time to
pray
but then you walked away from me.
An angel took you to the sky , i didnt get to say good-
bye
now my heart is broken apart.

Heaven seems so far, but i know thats where you are
i need your comfort and your love, i know your looking
from above.
I'm hiding all my sorrow and my pain.
I just want to be happy again.

No more playing in the park, no more singing in the
dark.
Everything reminds me of you.
but i've changed nonetheless, my heart is strong and
needs no rest.
my soul is full of love from you.

Now heaven doesnt seem so far, because i know thats
where you are,
i have your comfort and your love.
I know your looking from above.
I've no more sorrow no more pain!
Im finally happy again.

ooh yeah i am finally happy again...
